Mountain biking Story

STORY MAP | START TO FINISH

WHO? CHARACTERS

Noor: the main character.
Maya, Theo and Ben: her friends.
Jo: their guide and helper.

WHERE AND WHEN? SETTING

Camp Big Bear on a November day.
The lodge, a forest bike trail and a lookout above the lake.

GOAL AND MAIN PROBLEM

Noor wants to reach the lookout, but she feels nervous about the ride. She worries that stopping or walking will let the group down.

1 BEGINNING

A brave beginning

- The friends arrive at camp. Jo checks the brakes, tires and chains; Noor fastens her helmet.
- Noor feels shaky. Jo promises a pace that works for everyone, and Maya waits beside her.

2 CHALLENGE

The bend in the trail

- A raised root and damp leaves make the bend tricky. Noor stops and chooses to walk her bike.
- Jo and the friends walk with her. A leaf lands on Theo's helmet, and shared laughter helps Noor relax.

3 SETBACK AND RESPONSE

An unexpected clack

- Ben's chain slips off. He stops and worries that he has spoiled the ride.
- The group waits off the trail. Jo replaces and checks the chain; Noor encourages Ben for asking for help.

4 ENDING

The golden finish

- They reach the lookout, share apple cider and watch golden light on the lake. Jo gives them a wooden leaf badge.
- Noor is proud of their teamwork. After resting, they follow Jo back to camp at a comfortable pace.

HOW THE PROBLEMS ARE SOLVED

Noor's worry: She speaks up and walks; her friends wait with her.
Ben's chain: Jo repairs and checks it while the group waits safely.
Character change: Noor accepts kindness, then offers it to Ben. She finishes feeling proud.

WHAT NOOR LEARNS / THEME

Being brave can mean walking a difficult part, admitting a worry or asking for help. Patience, careful choices and teamwork matter more than speed.

Evidence: Noor chooses to walk at the root, encourages Ben and values how they reach the lookout together.

Teacher prompts: What happens first, next and last? How does Noor change? Which actions show courage and teamwork?

Level note: the map follows the full AA/AAA telling. Pre-A and A use a shorter version; the return to camp is stated in AA/AAA.
